Q3 2026 FINANCIAL AND OPERATIONAL REVIEW

Executive Summary:
Total revenue for the third quarter reached $48.2 million, reflecting a 22% year-over-year increase. Subscription software revenue accounted for 78% of aggregate receipts ($37.6 million). Adjusted EBITDA reached $12.4 million with an operational margin of 25.7%.

Expense Allocation:
- Research & Development (R&D): $16.8 million (AI agent inference pipelines and retrieval infrastructure)
- Sales and Marketing: $11.2 million
- General and Administrative: $5.8 million
- Capital Expenditures: $2.0 million dedicated to on-premise GPU clusters for local LLM fine-tuning.

Cash Position and Runway:
Cash and cash equivalents ended the quarter at $84.5 million with zero long-term debt obligations, yielding approximately 28 months of operational runway under conservative baseline projections.

Q3 2026 HEADCOUNT AND HIRING PLAN

Engineering headcount grew from 84 to 97 engineers during the quarter, bringing the total company headcount to 214 employees across 12 countries.

Department headcount at quarter close:
- Engineering: 97
- Sales: 41
- Marketing: 18
- Customer Success: 26
- General & Administrative: 32

Q4 2026 hiring plan targets 24 new hires, of which 15 are engineering roles focused on the retrieval quality and document ingestion teams. Attrition for the quarter was 3.1%.

Customer metrics: 1,840 paying customers at quarter end (net new: 112), with net revenue retention of 118%. The average contract value (ACV) across the customer base is $26,196.
